Gran Senda de Málaga: Stage 28	Stage	12.8	One way	5 - 6 or more	2,126	482	Woodland, rivers, viewpoints.	According to GSM, "quite a demanding itinerary". Long distance. 10% is asphalt or cement surface, 72% track or forest track, 18% footpath. There are an accumulated 2,525 ft (770m) of ascent and 2,890 ft (880m) of descent. There are 4 - 5 watercourses to cross. According to GSM, "a long and demanding itinerary ... a very mountainous itinerary with steep sections uphill and downhill". Very long distance. 14% is asphalt or cement surface, 71% forest track, 15% footpath, 16% livestock track. Cumulative ascent is 3,000ft (919m) and descent is 4,225ft (1,287m). The highest point is 1,690 ft (515m) and the lowest 35ft (10m). As regards watercourses "the many streams you need to cross do not tend to pose any danger and any bigger watercourses are rather taken ones". There is the possibility of dividing the journey into two legs. VERY DIFFICULT.	Yes
Gran Senda de Málaga: Stage 29	Stage	19.5	One way	10 - 11 or more	1,756	20	Sierra Bermeja, views over Mediterranean and Africa.	According to GSM, "a long and demanding itinerary ... a very mountainous itinerary with steep sections uphill and downhill". Very long distance. 14% is asphalt or cement surface, 71% forest track, 15% footpath, 16% livestock track. Cumulative ascent is 3,000ft (919m) and descent is 4,225ft (1,287m). The highest point is 1,690 ft (515m) and the lowest 35ft (10m). As regards watercourses "the many streams you need to cross do not tend to pose any danger and any bigger watercourses are rather taken ones". There is the possibility of dividing the journey into two legs. VERY DIFFICULT.	No
Ruta de las Recoveras	The Ayuntamiento de Casares organises the walk from Casares to the Gibraltar frontier every October, in memory of the Recoveras, whose story is told in the relevant download. Walkers who would like to take part apply to the Ayuntamiento. There are three stages, and walkers can elect to cover one or more of these.								Yes, but from end point
Senda Litoral - Stage 11	Stage	7.9	One way	3 - 4	64	-1	The coast.	Level, but lacks walkways in places. EASY - MEDIUM.	Yes, and need transport from end point.
